INDUSTRIAL POLICY IN AGRICULTURE

© 2019 A.M. FILIPSOV¹

Belarus State Economic University, Minsk, Belarus

¹E-mail: filipsov@mail.ru

The article substantiates the directions for improving the industrial policy in the agriculture of the Republic of Belarus on the basis of identifying structural changes in the agricultural production of the country, calculating the productivity of resources, total factor productivity and sectoral economies of scale.

Keywords: agriculture, competitiveness, agrarian policy, industrial policy

INSTITUTIONAL CHANGES IN THE MARKET OF AGRIFOOD PRODUCTS FROM USE OF TECHNOLOGY OF THE REGISTER OF BLOCKS OF TRANSACTIONS (BLOCKCHAIN)

© 2019 H.L. TARANOVA¹

The Belarusian State Agricultural Academy, Gorki, Belarus

¹E-mail: taranova77@yandex

In the article institutional changes in the market of agrofood products from use of technology of the register of blocks of transactions are considered. The geography of use of cryptocurrencies and blockchain technology is analysed and positions of Republic of Belarus among the states using this technology are defined. Scopes of technology of the register of blocks of transactions (blockchain) and its features in the market of agrofood products, an opportunity and advantage of this technology and the first transaction with use a blockchain are considered. Creation of the self-regulating mechanism of management and development of the Belarusian segment of network a blockchain with use of Council of nod is analysed.

Key words: institutional changes, market of agrofood products, technology, register, blockchain.
