ВВЕДЕНИЕ

Данное пособие предназначено для студентов всех специальностей. Целью его является развитие грамматических навыков по теме «Времена английского глагола в действительном залоге», предусмотренной программой изучения иностранных языков в неязыковом вузе.

Пособие состоит из 12 уроков по следующим временным группам: Indefinite (Simple) Tenses, Continuous (Progressive) Tenses, Perfect Tenses.

В пособии осуществляется дифференцированный подход к разработке грамматического материала: упражнения делятся на 3 уровня сложности: for Beginners, Intermediate Level, Advanced Level.

Каждый урок состоит из грамматических упражнений, краткого объяснения образования и употребления того или иного времени, ряда тренировочных упражнений и тестов. Также имеется таблица всех видо-временных форм английского глагола в действительном залоге, материал о статичных глаголах (во временах группы Continuous) и проверочные тесты.

Данное пособие рекомендуется к внутривузовскому использованию как на занятиях, так и для самостоятельной работы студентов.

LESSON 1

Отличительной чертой английского глагола является развитая система видо-временных форм. В английском языке, так же, как и в русском, есть настоящее, прошедшее и будущее время (Present, Past and Future). Однако, в отличие от русского языка, эти времена бывают простыми (Simple), длительными (Continuous), перфектными (Perfect) и перфектно-длительными (Perfect Continuous).

Временные формы английских глаголов иллюстрирует следующая таблица английских времен, в которой указана цель употребления данного времени, его функция. Например, действие, которое происходит обычно, постоянно, – факт, т. е. время группы Simple. Действие происходит именно сейчас, в момент речи – длительность, процесс, т. е. Progressive. Действие произошло ранее, но его результат связан с настоящим, – завершенность, т. е. Perfect. Такой таблицей удобно пользоваться для выбора времени при переводе предложения с русского языка на английский.

Временные формы

They were writing the letter the whole evening. Они писали письмо весь вечер.	by 5 o'clock, before he came Had + V ₃ . I had written the letter by 5 o'clock. Я написал письмо к 5 часам.	for 2 hours, when he came Had been + V _{ing} . You had been writing for 2 hours when he came. Вы писали уже 2 часа, когда он пришел.

I translated the article yesterday.

Время в прошлом указывается следующими обстоятельствами времени: **yesterday, last week (month, year, etc), two days ago, in 1983, when I was a child; the day before yesterday, the other day – на днях, недавно; during the war, etc.**

The Past Indefinite (Simple) Tense у правильных глаголов образуется с помощью суффикса **-ed**. Но многие важные глаголы в английском языке неправильные, и их вторую форму следует заучивать наизусть:

I very much enjoyed the party but I left the party at 9.

Affirmative Form	Interrogative Form	Negative Form
I He She It We You They  wrote.	Did  write? I he, she, it we you they	I He She It We You They  did not (didn't) write.

Did не используется с глаголом **to be (was, were)**:

Why were you so angry?

Но **did / didn't** используется с глаголом **to have**:

Did you have time to write the letter?

The Past Simple Tense используется также со словом **When** – когда:

When were you born?

Простое прошедшее время используется также для описания действий, не связанных с настоящим (напр., исторических событий):

How many symphonies did Beethoven compose?

Повторяющиеся действия часто выражаются при помощи конструкции **used + инфинитив или would + инфинитив**:

In summer he used to get up very early. Летом он обычно вставал очень рано.

When he felt melancholy he would stay in his room all day long. Когда он чувствовал грусть, он, бывало, проводил в комнате весь день.

He  is writing.	Is  he  writing?	He  is not writing.
She  is writing.	Is  she  writing?	She  is not writing.
It  is writing.	Is  it  writing?	It  is not writing.

The Present Continuous употребляется:

1. Для выражения длительного действия, совершающегося в момент речи:

The water is boiling. Could you turn it off, please?

Сравните: the Present Indefinite указывает на то, что действие происходит в настоящем времени регулярно, постоянно (every day, usually, as a rule).

Water boils at 100 degrees Celsius.

2. Для выражения длительного действия, совершающегося в настоящий период времени (в широком смысле):

Maria is in Canada for 3 months. She's learning English.

3. The Present Continuous указывает на временную ситуацию:

I'm living with some friends until I can find an apartment.

Сравните: the Present Indefinite указывает на постоянную ситуацию. My parents live in Boston. They have been there for 20 years.

4. The Present Continuous используется для выражения будущего действия в договоренностях (arrangements):

I'm seeing the dentist at 2. 30. We're visiting Spain next year.

Сравните: для выражения запланированных действий по расписанию или календарю используется the Present Simple:

The exam takes place on June 13th and 14th. The plane from London lands at 9.30.

5. Для выражения будущего действия, главным образом с глаголами движения come, go, leave, start, arrive и т. д.

They are leaving in a few days.

6. Для выражения действия, которое представляется как постоянный процесс, хотя в реальности таковым не является. Употребление Present Continuous придает определенную эмоциональную окраску высказыванию:

She is always complaining. They are always quarrelling.

7. Для выражения изменяющихся ситуаций:

The population of the world is rising very fast. People are getting taller.

Настоящее продолженное время используется со следующими указателями времени: **now, right now – в этот момент, just now – только что, at the moment, today, this week (month, season), these days, etc.**

Статичные глаголы (Stative Verbs)

Такие глаголы обозначают состояние, а не действие. Они не употребляются во временах группы Continuous. К ним относятся:

1. Глаголы чувственного восприятия: see – видеть, hear – слышать, smell – чувствовать запах, пахнуть; feel – чувствовать, taste – быть на вкус и т. д.

2. Глаголы умственного восприятия: agree, believe, think, consider, know, hope.

3. Глаголы, выражающие предпочтения: like, hate, dislike, love, prefer, want, wish и т. д.

4. Глаголы, выражающие принадлежность: belong – принадлежать, have – иметь, possess – обладать, keep – держать (напр. магазин) и т. д.

5. Другие глаголы: appear, seem – казаться, look – выглядеть, fit – подходить, contain – содержать, include – включать, be – быть и т. д.

Некоторые из этих глаголов всё же употребляются в форме Continuous, но тогда их значение изменяется. Проанализируйте перевод следующих предложений:

They look tired. Они выглядят усталыми.

She is looking at them. Она смотрит на них.

LESSON 7

The Present Perfect Tense

Present Perfect образуется при помощи вспомогательного глагола **to have** в форме настоящего времени (**have, has**) и причастия прошедшего времени (**Past Participle**) смыслового глагола.

Affirmative Form	Interrogative Form	Negative Form
I – have broken. He  has broken. She It We  have broken. You They	Have I broken? Has  broken? he she it Have  broken? we you they	I have not (haven't) broken. He  has not (hasn't) broken. She It We  have not (haven't) broken. You They

Present Perfect употребляется для выражения действия, совершившегося к настоящему моменту, результат которого имеется налицо в настоящем времени. При употреблении **Present Perfect** важен результат, вытекающий из совершённого действия, а не время его совершения.

Present Perfect часто переводится на русский язык прошедшим временем глагола совершенного вида.

Present Perfect употребляется без указания времени совершения действия, поскольку важен факт его совершения, а не время:

She has finished her work.

Present Perfect часто употребляется с наречиями **ever** (когда-либо), **never** (никогда), **often** (часто), **already** (уже), **not yet** (ещё не), **just** (только что), **lately** (за последнее время), **recently** (за последнее время), **since** (с), **for** (в течение), а также может употребляться с обстоятельственными словами, обозначающими ещё не истекшие периоды времени: **today** (сегодня), **this week** (на этой неделе), **this month** (в этом месяце) и т. п.

I have never read this book.

He hasn't received any letters this week.

Примечание:

Present Perfect употребляется для выражения совершенного будущего

действия (вместо Future Perfect) в придаточных предложениях времени и условия, которые вводятся союзами *after, before, as soon as, if, when, till (until)*. В этом случае Present Perfect переводится на русский язык глаголами в будущем времени.

I'll give you the book as soon as I have read it.

LESSON 8

The Past Perfect Tense

Past Perfect образуется при помощи вспомогательного глагола **to have** в форме прошедшего времени (**had**) и причастия прошедшего времени (**Past Participle**) смыслового глагола.

Affirmative Form	Interrogative Form	Negative Form
I He She It We You They <div style="position: absolute; left: 180px; top: 50px;">had written.</div>	I he she it we you they <div style="position: absolute; left: 10px; top: 50px;">Had</div> <div style="position: absolute; left: 450px; top: 50px;">written?</div>	I He She It We You They <div style="position: absolute; left: 180px; top: 50px;">had not (hadn't) written.</div>

Past Perfect употребляется для выражения прошедшего действия, которое уже совершилось до определенного момента в прошлом.

Past Perfect переводится на русский язык прошедшим временем глагола совершенного вида.

Past Perfect представляет собой «предпрошедшее» время, поскольку оно выражает прошедшее действие по отношению к моменту, также являющемуся прошедшим. Этот момент может быть указан:

а) обозначениями времени, такими как **by 5 o'clock, by Saturday, by the end of the year, by that time.**

The factory had fulfilled its plan by the end of the year.

б) другим (более поздним) прошедшим действием, выраженным глаголом в Past Indefinite:

We had finished our work when he came.

He told me that he had bought a new watch.

Как видно из приведенных примеров, Past Perfect может употребляться как в главном, так и в придаточном предложении.

В сложноподчиненных предложениях с придаточным предложением времени с союзами **after, when, before, till, until**, как в главном, так и в придаточном предложении употребляется **Past Perfect**.

They had gone to bed when he came.

I remembered it when they had gone.

The director returned before the secretary had typed all the letters.

Future Perfect образуется при помощи вспомогательного глагола **to have** в форме будущего времени (**will have**) и причастия прошедшего времени (**Past Participle**) смыслового глагола.

He will have translated the article by that time.

Future Perfect употребляется для выражения будущего действия, которое совершится до определенного момента в будущем. Future Perfect переводится на русский язык будущим временем глагола совершенного вида. Момент, до которого совершится действие, может быть указан:

I will have copied the text by that time.

б) другим будущим действием, выраженным глаголом в Present Indefinite, в придаточных предложениях времени и условия.
